PROFILE

Motivated and ambitious computer science student with a keen interest in Python programming and its applications in web development and data science. Equipped with a strong academic background and practical experience, I am driven to contribute effectively to the tech industry by innovating at the intersection of web technologies and data analytics.

Passionate about tackling complex challenges and continuously expanding my skill set, I am a quick learner who thrives on finding solutions to problems when provided with the right direction. Eager to leverage my expertise as a Python Developer to drive meaningful impact in dynamic and collaborative environments.

EDUCATION

Bachelor's in Computer Science

GIFT UNIVERSITY

2022 - 2025

CGPA
3.63 / 4.0

- During my university studies, I delved into programming fundamentals.
- Beyond academics, I actively engaged in co-curricular activities, cultivating robust communication and problem-solving skills. As a member of GSID (GIFT Society of Innovation and Development), I refined my leadership abilities and collaborated on innovative projects.
- These experiences have shaped me into a well-rounded individual adept at navigating life's challenges, emphasizing communication, problem-solving, and leadership.

EXPERIENCE

Python Developer Intern

VILLAEX TECHNOLOGIES

10/2023 - 12/2023

Lahore, Punjab, Pakistan

<https://villaextechnologies.com/>

In my role as a backend python developer intern, I was immersed in web development using python, gaining hands-on experience with the FastAPI framework. Additionally, I acquired skills in version control tools and project management, contributing to a well rounded understanding of the development lifecycle.

Assistant Operations Manager

FALCON PACKAGES PVT. LTD.

10/2022 - 11/2022

Gujranwala, Punjab, Pakistan

<https://falconpackages.com/>

As an Assistant Operations Manager at Falcon Packages, this role offered me essential business management skills, providing a well-rounded understanding of how a business operates. Additionally, I gained valuable insights into how a product and business are managed.

PROJECTS

Hospital Lab Management System

<http://bestlab.000.pe/>

Elevated patient care with the Online Hospital Lab Management System, offering a seamless experience from test selection to home sampling, optimized healthcare operations for efficiency and excellence.
